WHO IS THIS COURSE FOR?

This course is ideal for professionals responsible for implementing, maintaining or improving an ISMS.

- Information Security Managers
- CISOs & Security Leaders
- Information Security Professionals
- IT Managers and Leaders
- Risk and Compliance Professionals
- Internal / External Consultants
- Auditors
- Project Managers
- ISMS Team Members
- Anyone responsible for implementing, maintaining or improving an ISMS

WHY ATTEND?

Master ISMS Implementation
Build practical skills to implement, maintain and continually improve an ISMS based on ISO/IEC 27001.

Gain a Globally Recognized Credential
Earn the PECB ISO 27001 Lead Implementer certificate and demonstrate your expertise worldwide.

Strengthen Information Security
Enhance your organization's security posture, protect information assets and reduce security-related risks.

Ensure Compliance & Reduce Risk
Align your ISMS with ISO/IEC 27001 requirements to meet regulatory obligations and reduce risks.

Career & Business Advancement
Enhance your professional credibility, open new career opportunities and deliver greater value to your organization.

COURSE HIGHLIGHTS

- Understand ISO/IEC 27001 requirements in detail
- Establish and implement an ISMS framework
- Plan an ISMS implementation
- Conduct information security risk assessment and treatment
- Implement information security controls
- Monitor and measure ISMS performance
- Continually improve the ISMS
- Prepare for an ISO/IEC 27001 certification audit
- Prepare for the PECB ISO/IEC 27001 Lead Implementer certification exam
